

HIDE-AWAY[®]

STORM SHELTER

Folding Tornado Shelter/Safe Room for Classrooms

Benefits:

- Provides protection from armed intruders* & F-5 tornados
- Folds behind the whiteboard, 19" from the wall
- Preserves valuable floor space
- Deploys in seconds
- Holds 29 students, plus a teacher
- Retrofits into existing schools
- Locks from inside for added security
- Optional vision panel lets you see outside
- A no-gun solution - no armed guards
- Eliminates payroll expense for guards
- Fast, convenient - right in the classroom
- Above-ground shelter - doesn't flood

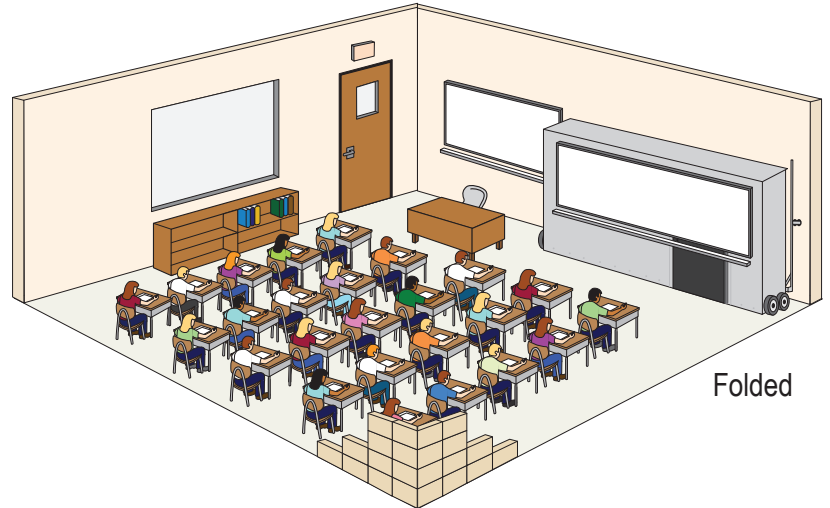

Features:

- Anchors securely to concrete slabs
- Wheeled on front for easy deployment
- Natural ventilation per FEMA
- Made of 1/4" steel
- 1" locking pins and 1" continuous hinge
- 3/4" diameter grade 5 bolts
- Durable powder coat finish
- Modular bolt-together design
- Electrical ground stud
- Optional military grade ballistic steel (withstands .30 caliber armor-piercing round)*

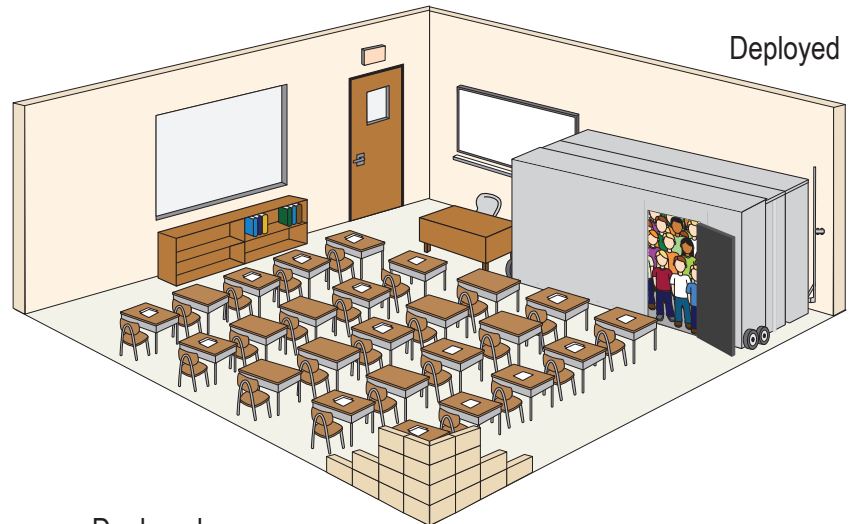

Certifications:

- Third party engineering certified
- Certified to FEMA standards for F5 Tornado
- Tested at National Wind Institute (NWI)
- Meets FEMA 320/361 and ICC 500
- ATSA listed

* Hide-Away shelters/safe rooms provide two levels of protection from armed intruders. Standard units are made of 1/4" thick steel to provide NIJ Level IIIA protection against hand guns and shotguns, which make up 90% of violent crimes, according to a Bureau of Justice Statistics Special Report. If you want protection from high caliber and armor piercing rounds, you can order the Ballistic Option, which uses military grade steel that is used in combat vehicles to provide NIJ Level III protection up to 7.62 NATO rounds (.308 caliber).
